

## The Fifth International Conference on Damage Mechanics (ICDM5)

Date: 16th - 18th July 2025

Venue: National University of Singapore

<b>Mini Symposium Title</b>	Damage-coupled Constitutive Models and Their Application
<b>Short description on the focus of the Mini Symposium</b>	This mini-symposium aims to provide a platform to discuss new techniques for characterizing different types of damage, nonlinear damage accumulation rule, damage criteria, damage-coupled constitutive models, and their applications in the simulation of various engineering materials and structures.
<b>Organizers</b>	Kan Qianhua, Southwest Jiaotong University Zhu Yilin, Southwest Petroleum University Huang Minsheng, Huazhong University of Science and Technology Guozheng Kang, Southwest Jiaotong University
