

The Fifth International Conference on Damage Mechanics (ICDM5)

Date: 16th - 18th July 2025

Venue: National University of Singapore

Mini Symposium Title	Impact induced damage and fracture behavior of materials at micro-/nano-scale
Short description on the focus of the Mini Symposium	The mini-symposium aims to provide a platform for discussion of the newest developments in experiments, modeling, and simulations of the damage and fracture behavior of materials at micro-/nano-scale under plate impact, projectile impact, and laser shock, etc.
Organizers	Xianqian Wu, Institute of Mechanics, Chinese Academy of Sciences, China Wanghui Li, Institute of High performance Computing, Agency for Science, Technology and Research, Singapore
